Complete Suburban Home Planting at a Remarkably Low Price

SO FAR as I know this is the first time that any nursery firm has offered a complete home planting of Broad-leaved Evergreens, Conifers, and Hardy Native Plants. Also, this is the first time that my stocks have permitted me to make such a generous offer to home-owners. All of the plants in the Collection are nursery-grown, have received the best of care and cultivation, and if given reasonable attention the first season will prove to be entirely satisfactory.

	Each	Value
25 Azalea arborescens, 1 to 2 ft.	\$2 00	\$50 00
50 Azalea calendulacea, 1½ to 3 ft.	2 00	100 00
25 Azalea canescens, 1 to 2 ft.	1 60	40 00
25 Azalea nudiflora, 1½ to 3 ft.	2 00	50 00
25 Abies fraseri, 6 to 12 in.	15	3 75
50 Kalmia latifolia, 1½ to 3 ft.	2 25	112 50
50 Leucothoe catasbaei, 1½ to 3 ft.	2 00	100 00
25 Picea mariana, 6 to 12 in.	20	5 00
25 Pieris floribunda, 9 to 12 in.	1 25	31 25
25 Rhododendron carolinianum, 1½ to 3 ft.	2 25	56 25
75 Rhododendron catawbiense, 1 to 3 ft.	2 75	206 25

Regular Retail Price		\$1,186 00

ENTIRE LOT OF 24 VARIETIES

Totaling 1590 separate plants, making a full carload, for only **\$1,000**

HALF OF THE COLLECTION (as nearly as it can be divided), with a sufficient quantity of leaf-mold to equal a carload, for **\$550**

The approximate weight of the full Collection is 20,000 lbs., thus giving carload freight rates. With the half Collection I ship a sufficient quantity of leaf-mold to equal 16,000 lbs., which is a minimum carload.

All of this stock is of the highest quality, nursery-grown, and I can guarantee that you will be satisfied with all of the specimens. Shipment will be made f. o. b. Ashford, N. C.

Hardy Native Deciduous Trees and Shrubs

Cultural Directions for Azaleas, Broad-Leaved Evergreens, and Similar Plants

Azaleas, Kalmias, Leucothoe, Pieris, and Rhododendrons are acid-soil plants and will not succeed well in limestone soils. A deep, porous soil is essential. The ground should be excavated to a depth of about 2 feet, working in leaf-mold, humus, or well-rotted stable manure. This mixture must be worked in carefully and packed tight around the roots. Fill in the excavation with rotted sods, muck or peat soil, mixed with a small quantity of sand.

The plants should be set the same depth as in the nursery, which is shown by the earth-line near the base. After planting, mulch with several inches of leaves or light litter, allowing this mulch to remain around the plants, and renew it annually in the autumn. A thin covering of rich soil may be used to an advantage in holding mulch in place and to assist in decomposition. The mulch also tends to keep the soil cool in summer and protects against freezing in winter. If these simple instructions are observed, your planting of Broad-leaved Evergreens will be entirely successful.

For use in beds of Rhododendrons, Azaleas, and other similar plants we recommend the following: Galax, Shortia, Ferns, Orchids, Lilies, Trilliums, Cimicifugas, Iris, Polygonatum, Sanguinaria, and most of our other perennials.

ACER dasycarpum. Silver Maple. Rapid-growing, Each		10	100	1,000
graceful tree.

Adiantum pedatum

Hardy Native Ferns

For shady locations, no class of plants can equal the Ferns. They are easily grown in ordinary soils and will often thrive where it is impossible to make flowering plants succeed. We handle large quantities of Ferns annually and recommend the following:

ADIANTUM pedatum. American Maidenhair Fern. Deciduous. One of the most distinct and beautiful.	10	100	1,000
Strong, established plants.....	\$1 75	\$15 00	\$140 00
ASPLENIUM angustifolium.			
Strong plants.....	2 50	20 00	
ATHYRIUM filixfemina. Lady Fern. Large, deciduous Fern. Exceedingly showy.			
Strong plants.....	1 75	15 00	135 00
BOTRYCHIUM virginianum. Rattlesnake Fern. Deciduous. Triangular fronds, deeply cut. Showy.			
Strong plants.....	1 75	15 00	135 00
DICKSONIA punctilobula. Hay-scented Fern. A very handsome, vigorous-growing, deciduous species. Recommended for shade or open locations. Widely distributed.			
Extra-strong, clumpy plants.....	1 75	15 00	135 00
DRYOPTERIS hexagonoptera. Winged Woodfern. Deciduous. Broad, triangular fronds.			
Strong plants.....	1 75	15 00	140 00
marginalis. Leather Woodfern. Robust, evergreen, showy species.			
Extra-strong, stocky plants.....	1 75	15 00	140 00
spinulosa. Toothed Woodfern. Evergreen.			
Strong, established plants.....	1 75	15 00	140 00

Special Collection No. 7**Plants for Rock-Gardens**

Real rock-gardens—not just a pile of stones—are growing in popularity and are a joy to the fortunate gardener who has one. These plants will start a rock-garden and show you how lovely it can be made.

Phlox subulata. Moss Pink. Flowers white, pink, purple, and rose. An evergreen ground-cover.

Sedum ternatum. Mountain Stonecrop. White flowers in early spring. A gripping ground-cover.

Habenaria ciliaris. Yellow Fringe Orchid. Handsome yellow flowers.

Asclepias tuberosa. Butterfly Weed. Orange or red flowers. Height 15 to 24 inches.

Gentiana andrewsi. Closed Gentian. Blue flowers in September which are tightly closed at the tip.

Heuchera americana. American Alum-root. Greenish white flowers in June. Foliage mottled bronze in early winter.

Potentilla tridentata. Wine-leaf Cinquefoil. White flowers in midsummer. Foliage colored bronze in fall and winter.

Xerophyllum asphodeloides. Turkey's Beard. White flowers on spikes 3 to 5 feet.

Yucca filamentosa. Common Yucca. White, bell-shaped flowers in July and August.

Yucca flaccida. Weak-leaf Yucca. White flowers in early spring.

Dicentra eximia. Fringed Bleeding-Heart. Deep rose flowers all summer.

Campanula divaricata. North Carolina Harebell. Flowers pale blue.

Five plants of each variety (60 plants in all) for only \$8.50

SANGUINARIA canadensis. Bloodroot. Height 5 to 8 inches. One of our best perennials. Large white flowers in early spring. Strong plants.....	1 00	9 00	85 00

Leaf-mold and Orchid Peat

Leaf-mold is nature's fertilizer. It is better than manure for potted plants and flower-beds. Mix one-third leaf-mold with two-thirds garden loam for best results.

Leaf-mold improves the physical condition of the soil and aids seed germination.

Household size, 50 cts., postpaid; 100-lb. bags, \$2; per ton (in bags), \$15

Orchid Peat (*Osmunda*), aged, hand-gathered, free from core. Bus. 75 cts. Carload prices on application.

HARDY NATIVE HERBACEOUS PERENNIALS, continued

Our Packing Shed

Note to Customers

NEW LOCATION

Is in the heart of the Blue Ridge Mountains, "the most beautiful mountain region on the continent," in western North Carolina, nearly 4,000 feet above sea-level. My permanent headquarters is Ashford, McDowell County, North Carolina, on the scenic Clinchfield Railroad.

QUOTATIONS

This list cancels all previous offers. Please do not order from old catalogues.

All offers of stock are made subject to conditions beyond my control

PACKING AND GRADING

Will be done in the most careful way. Boxing included and burlapping at cost where not stated. Certificate of Inspection attached to all shipments.

REMITTANCE OR REFERENCE

Should accompany orders from unknown correspondents. Discount of 5 per cent on cash orders. All bills due and payable 30 days from date of invoice. Interest charged after 30 days.

SHIPPING INSTRUCTIONS

Should always be given fully, unless you prefer to leave to our best judgment. In this we assume no risk, our responsibility ceasing upon receipt of signed bill of lading by forwarders. All claims for damages in transit must be handled by consignee.

CLAIMS

All claims for errors must be reported upon receipt of goods and will be rectified promptly. Unless this is done we can accept no responsibility of any kind.

No GUARANTEE is made that stock will grow, whether planted by us or not. As we have no control over after-treatment or weather conditions, the purchaser must assume all risks after stock leaves our Nursery in good condition.

In no case shall we be held for damage exceeding original purchase price and only to this extent when proper proof is furnished that stock has been wrongly labeled.

All orders are accepted and filled on these terms, unless otherwise agreed

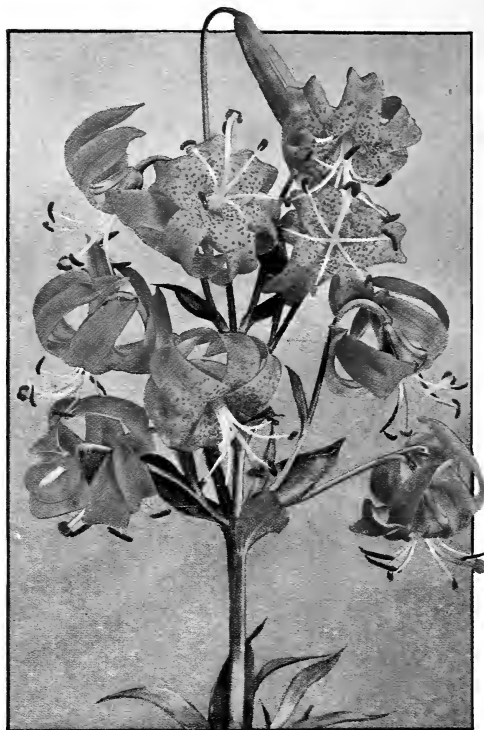

FALL SHIPPING SEASON begins late in August and extends usually till about December 1, according to weather conditions.

SPRING SHIPMENTS are forwarded according to customers' wishes and subject to conditions beyond our control, March 1 to May 15. PLEASE ORDER EARLY.

Lilium carolinianum

A showy Lily somewhat dwarfer than *L. superbum*, with flowers a little lighter in color, but enriched with a delicate and pervasive fragrance. It grows 2 to 4 feet high, and, in spite of its common name of Swamp Lily, thrives best in well-drained soil and in partial or even fairly dense shade. Its habit is peculiarly airy and graceful, the petals recurving sharply but not bent back so completely as *L. superbum*, so that the long, slender tips are frequently erect or barely touch each other. See page 23 for description and prices.

Lilium superbum

This is the tallest and most spectacular native Lily. Under favorable conditions it reaches 8 feet, bearing scores of 3 to 4-inch flowers of brilliant orange-scarlet, shaded yellow and dotted and tinged with brown in the center. The petals curve backward sharply, forming a turban-shaped flower which accounts for its common name, the "Turk's-cap Lily." It particularly likes to stick its head up through an opening in over-hanging shrubs. Blooms in July, and is easily adaptable to garden conditions. See page 24 for description and prices.

The bulbs of all Lilies should be planted as early as it is possible to obtain them in autumn. Most of them make root-growth before winter and produce stronger stems and flowers in consequence. It is well to dust all bulbs with flowers of sulphur or some good powdered fungicide before planting, and to make sure that the drainage is perfect. Water standing over or about the bulbs is fatal. Never use any manure in the Lily-bed. Use woods' earth or leaf-mold for fertilizer.

MY SPECIALTIES:

Pieris floribunda, Azaleas, Rhododendrons, Kalmias, Oxydendrum, Tsugas, Leucothoë Catesbæi, Iris, Galax, Shortia, Ferns, Cypripediums, Dicentra, Liliums, Trilliums, Hydrastis, Panax, Polygonatum, Sanguinaria, and Stenanthium
